

Career Navigator & Career Navigator Expert

Career Navigator consists of a digital study into your competencies/skills under the guidance of an experienced career counsellor/organizational psychologist. **Career Navigator Expert:** the study is expanded to include follow-up coaching

To perform well at your work, you need to have insight into what you're good at and what gives you energy (and what doesn't). With these insights you can make proper choices and you will keep your work exciting and challenging. Career Navigator will help you achieve this: with online assessments, you will make a useful plan of action and a powerful (online) pitch. In the extended Expert version, a career coach will help you with the follow-up steps.
