# **Mental Checkup**

Mental Checkup helps employees through an online conversation to easily assess their vitality and mental resilience.

**Mental Checkup** is a screened e-health application. Mental Checkup can be used by employees who feel the need to map their vitality and mental resilience with a coach. They discover what they are doing well to maintain their vitality and what they can do (more) to strengthen it. If it appears during this conversation that there is 'more' going on, we intervene by giving the employee a targeted referral.

**Mental Checkup** is available on all working days from 9:00-21:00. It consists of one 30-minute conversation. At the end of the interview, the employee, in consultation with the coach, gives himself a vitality rating on a scale of 1-10.

**Mental Checkup** is accessible with any device. Privacy is guaranteed in accordance with ISO 27001 (international information security standard) and NEN 7510 (Dutch healthcare standard). The coaching takes place outside the employer's system and no feedback follows.

<b>individual</b> - group 1 : 1 - <b>online</b>	Matched Care category:
educational - <b>preventive</b> - curative	@work @risk @home
Number of hours:	Turnaround time in weeks:
0 2 4 6 8 10 12 14	0 2 4 6 8 10 12
